

Feedback Centre

A new approach to patient experience in Wirral

Tell us about your experiences and help us shape Wirral's health and social care services.

it starts with
YOU

Working together to positively shape health and social care services in Wirral

Have you had a good experience of health and social care? It's important right now for us to understand what's working well and areas that can be improved.

Healthwatch Wirral is clear about its goal - to ensure that your voice is heard and to make a difference by giving you the best possible health and social care services.

Our brand new Feedback Centre enables you to provide information about all health and social care organisations in Wirral. This helps

us to generate data that we can understand and act on.

Using Feedback Centre, you can find and leave feedback on any local health organisation simply by searching its name, location or postcode. This can be done on a variety of devices.

The feedback you leave can be provided anonymously and will help us to shape health and social care for everyone.
